Free Wi-Fi in Japan

- ◆ Downloading “Japan Wi-Fi auto-connect” app allows you to find free Wi-Fi and connect to them automatically when available. You can download the app through this QR code.
*With this app, free Wi-Fi is available at Shinjuku Expressway Bus Terminal.

- ◆ Generally, free Wi-Fi is not so common in Japan compared to other countries. It will be provided in the conference rooms and the accommodation during the assembly, but the connection might be unstable or slow since lots of people share it.
- ◆ If the internet connection is critical for you or you want to keep connection on the way from the airport to the conference center, we recommend you buying a prepaid SIM card or renting a Wi-Fi router at the airport upon arrival or preparing a prepaid SIM/eSIM card before coming to Japan. To find the most convenient shop/vending machine around you, please ask at the service counter at the airport.
